Flash Cure Units

Eng

M&R Infrared Flash Cure Units are hot. These sleek flash cures, like all M&R equipment, are built with M&R's unsurpassed commitment to quality, durability, and design excellence, and backed by M&R's unparalleled service and support. Each flash cure unit carries a 2-year limited warranty. With five infrared models and two quartz models (Cayenne & Tacana) to choose from, you're bound to find just the cure you've been looking for.

### *Habanero Flash™*

M&R's versatile Habanero incorporates sophisticated controls and rugged durability into a fully portable flash cure system for automatic presses. Habanero features a powerful infrared panel, digital temperature controls, operation indicator light, solid-state circuitry, a fully insulated panel guard to minimize exterior heat, and floor-leveling wheels on a sturdy, height-adjustable stand. Hood-mounted controls give Habanero a sleek, clean appearance. This highly mobile, freestanding unit can also be used on manual presses. Habanero is a star performer in any print shop and an ideal retrofit flash cure solution for existing M&R automatic printing systems.

### *Serrano Flash™*

Serrano Flash uses a smooth AC drive and roller-bearing assemblies for dependable performance and long life. The shuttle on this freestanding unit can be controlled with a foot pedal or integrated with the press for automated operation. Serrano Flash features include adjustable stand height, control box cooling fan, power level control, and power indicator light.

### *Reno Flash™*

Reno Flash is M&R's most economical flash cure unit for automatic presses. Its press-mounted shuttle design delivers smooth, dependable operation in a sleek package. Reno Flash's digital temperature controller delivers accurate results, and its optional floor stand turns it into a multi-use flash that will suit the needs of many shops. Reno Flash is an ideal infrared flash for both manual and automatic presses. If you want to get a lot without spending a lot, Reno Flash has the cure.

### Acoma Flash™

Acoma Flash is M&R's sophisticated manual flash cure system. Its solid-state controls include dwell controller & indicator and temperature control dial for consistent heat settings from job-to-job. Although its light weight makes it easy to wheel around the shop, its wide base delivers outstanding stability. Acoma Flash has an adjustable stand and panel assembly, and offers 120° swivel movement to provide clearance for even oversized pallets. Acoma Flash features foot-pedal/timer control for smooth, easy operation and consistent repeatability.

### Tabasco Flash™

Tabasco Flash is M&R's economical, dependable flash cure unit for manual presses. It features lever-lock rotation and floor-leveling pads for easy setup. Tabasco Flash is height-adjustable and completely portable. An on/off switch activates its energy-efficient infrared heating element. Tabasco Flash is available in both 110 VAC and 208/230 VAC models, making it versatile enough to be used in virtually every shop. It's simply the most economical way to move into manual flash curing.

#### SPECIFICATIONS

Model	Size	Electrical Requirements*	
		208/230V 1 phase 50/60 Hz	110V 1 phase 50/60 Hz
