

Annamister Jr.

Manual Adhesive Application System

Eng

Annamister Jr.™

Annamister Jr. works by applying a fine coating of water-based adhesive to pallets. Spray jet positioning and pressure are fully adjustable for maximum flexibility. Annamister Jr.'s sturdy floor stand is height adjustable and can be easily rolled into place. For added convenience, the stand even incorporates a shelf to hold a bucket of adhesive up to 5 gallons (18.9 liters) in size. With rigid steel construction and built-in pump, Annamister Jr. is the ideal manual adhesive application system and the perfect replacement for more expensive and less versatile aerosol cans.

Annamister Jr. comes with a one-year warranty, and like all M&R equipment, it's built with M&R's unsurpassed commitment to quality, durability, and design excellence, and is backed by M&R's unparalleled service and support.

SPECIFICATIONS

Models	Air Requirements @ 40 PSI	Shipping Weight
Annamister Jr.	3 cfm	60 lbs (27 kg)
